For Immediate Release

Maxair Compressed Air Pipe Range...

[Enerquip Pty Ltd](#) today announced the launch of its Industrial Compressed Air Pipe system – “Maxair”.

Maxair PE100 Pipe system is ideally suited for compressed air applications. Some benefits and advantages include;

- Fracture Resistance
- Ultraviolet Light Resistance
- Corrosion Resistance
- Chemical Resistance
- Impact Resistance
- Colour Coded
- Thermal Insulation Properties
- Low Noise / Vibration Transmission
- Lightweight
- Ease and Speed of installation
- Long Service Life

[Enerquip](#) traditionally has focused on supply of industrial electric air compressors, the Maxair pipe systems product range compliments that and is a natural inclusion to Enerquip's product range.

Peter Humble pointed out “The Maxair Pipe system is the only Polyethylene Compressed Air Pipe system that is presently using PE100 material making it stronger, safer and more suitable for use with compressed air when compared to other poly pipe systems.”

The [Maxair Pipe Systems Catalogue](#) can be downloaded from Enerquip's web site [Enerquip.com.au](#) . Photos of typical installations and layout ideas are also available to view on the site.

Peter Humble said “We have found the Maxair system is easy & fast to install, clean in appearance and provides superior flows with very low pressure drops when compared to copper and gal systems.”

About The Company

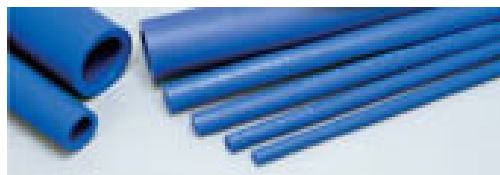

[Enerquip Pty Ltd](#) provides an on-line catalogue of Industrial and Construction Compressed Air Equipment, Installation Photos, Compressed Air Calculators and Conversion Tools. According to Peter Humble “The Construction and Industrial Compressor Web site is intended to help our customers with their off-line and on-line research before purchasing Compressed Air Equipment.

[Enerquip Pty Ltd](#) is a supplier of;

- [Industrial Rotary Screw Air Compressors](#)
- [Refrigerated Air Dryers](#)
- [Variable Speed Inverter Compressors](#)
- [Diesel Compressors](#)
- [Drill Compressors](#)
- [Finite Filtration](#)
- [Air Receivers](#)
- [Oil Water Separators](#)
- [Auto Drains](#)
- [Compressor Service](#)
- [Compressor Spare Parts](#)
- [Used Equipment](#)
- [Hire Compressors](#)
- [Pipe and Fittings](#)

Other Online Services Include;

- [Pressure Conversions](#)
- [Volume Conversions](#)
- [Temperature Conversions](#)
- [Power Conversions](#)
- [Air Usage Calculator](#)
- [Wasted Air Calculator](#)
- [Learning Centre](#)
- [Photo Album](#)
- [Rent Try Buy Calculator](#)
- [Press Releases](#)

For more information on PE100 Maxair Compressed Air Systems, Peter Humble can be contacted on 07 3205 1300
